Bathtime Safety Tips for Little Chickies

- Set water heater thermostat between 100–125 degrees Fahrenheit.
- Use a thermometer. Water temperature should be between 90 and 100 degrees Fahrenheit.
- Have everything you'll need at hand and within reach before putting your little chickie in the bathtub.
- Never leave your little chickies alone in the bathtub.
- Install a non-skid mat or decals.
- Use a non-slip bath mat.
- Use a faucet cover.
- Dry all bathtub toys after each bath and run through dishwasher once a week.
